

## **The Tree of Life Classes**

### **An Evening with Beloved Akasha and Asun**

These classes are held most Wednesdays in Vancouver, BC. hosted by Messenger #1, Usa. The evening begins with an opening meditation and then followed by a message from our Ascended Mother Akasha. The second half of the evening begins with Calls and Decrees to help our planet followed with a message from our Master Teacher Asun. The evening is 7 pm to 9:30 pm.

Akasha and Asun come to us Ascended and free, offering us the lost knowledge, the knowledge of the Tree of Life, they reveal to us the knowledge and use of the Sacred Fire and introduce us to the Door to Everything, our Soul. They will never tell us what to do with our life, as they fully honor our God given free will.

The Wednesday Evenings offer you the fundamentals, a deep examination of the great “Universal Laws”; they bring your attention back to the foundation from which spirituality and Life unfolds. They provide a strong foundation in our study of metaphysics, setting aside the tree of knowledge of good and evil that has poisoned the human consciousness, opening the way to embrace and discover the knowledge of the Tree of Life.

It truly helps you to understand how your mind and feelings work. These Evenings continues to offer personal and spiritual empowerment, providing a great understanding of the many aspects of self and allowing you to process and release instantly that which is holding you back.

The classes will assist you to understand the “Laws of Manifestation”, provide you the tools as to how to apply them and more, and the most amazing “Sacred Guided Meditations and Journeys” the likes of which can transform your world quickly.

### **The Ascended Mother Akasha**

“You all have a destiny and a time of destiny is upon this planet. A destiny calls the entire human race, a destiny that seeks to fulfill itself, a destiny that brings about first of all through the great sufferance and the great dissatisfaction many have experienced, and the insanity that is on this planet, those circumstances that often trigger an awakening to your True Nature, a path of self-realization, a path in which you are drawn to spiritual books, spiritual understandings and sort through all of those and try to find one that ultimately will serve you and support you in that which ultimately allows you to come back to your True Self, a Self that was never intended to live in limitation, a self that was never intended to live in imperfection.”

“The great destiny of the entire human race is to rediscover the Sacred Fire, the Christ Mind, and the Soul. One can become very interested in the laws of metaphysics, the laws of this Universe, the laws of manifestation, yet if any of these laws or the study of these things excludes the knowledge of the Sacred Fire, your own Christ Mind or your Soul, that knowledge is incomplete and the ability to work with those laws in a way to produce perfect results is handicapped.”
